Important Survey to Help Australia

Hello

We are seeking public feedback on what people want, politically, in Australia. This will help a new or existing candidate, alliance, or party that supports good issues to gain more support, because they will know what the public wants and know what new policies to implement. Hence, it would increase the chances of good members of parliament holding the balance of power. They would block bad legislation, but allow and encourage good legislation. I don't intend to be a politician myself. I would just like to see good members with the balance of power elected to parliament.

Could you please forward this survey on to your friends, or to people who are interested in Australian politics, or to those on your mailing list. You need to ask a large variety of people, and not necessarily those committed to the existing parties.

Could you please also answer some questions in this survey. You don't have to answer all the questions. Please attach some writing paper for your answers if there is insufficient room.

It would be appreciated if you could send your answers to eps@truesolutions.info or to Richard Hole, 9 Leonard St. Tolga, 4882. Ph (07) 4095 5447. It can also be done online at advantagein.com/politics/survey.htm. Please contact me for more information and printed copies or if you intend to distribute a large number.

Your help would be appreciated,
Regards Richard.
